The Care Champion Experience

Managing your day-to-day life with cancer can be challenging, but you don't have to do it alone. Sign up for our Care Champion Program and take the first step toward receiving personalized support.

This program is a free service from Pfizer Oncology Together™. You'll be partnered with a dedicated Care Champion who has social work experience. They're trained to provide you and your caregiver with ongoing support from diagnosis through treatment.

One-on-One Support

Your dedicated Care Champion is ready to talk by phone or email when it's convenient for you. They may offer connections to:

- Support resources for some daily challenges
- Access Counselors for financial assistance
- Diagnosis-specific resources

I look forward to the monthly calls.

I had a question and **the Care Champion was so kind** and thorough. She took the time to research my question and follow up.

We're With You Along the Way

Whether you want to find ways to make healthy changes in your life or learn more about managing stress, your Care Champion can help you and your caregiver find support.
