Navigating Insurance Coverage

Most insurance providers keep a list of medicines that may be available in their plans. If you need help understanding what your plan covers, **Pfizer Oncology Together™** can contact your insurance provider to find out about your coverage and **out-of-pocket costs** for your prescribed Pfizer Oncology medicine. Out-of-pocket costs are expenses that are not paid by your insurance plan. They could include a deductible, co-pay, or coinsurance.

DEDUCTIBLE

The **annual amount** you must pay toward your healthcare costs before health plan benefits take effect.

CO-PAYMENT (CO-PAY)

A **preset dollar amount** you're required to pay for a prescription or physician service, usually at the time of receipt.

Co-pays may be applied whether you've met a deductible or not.

COINSURANCE

The **percentage of the cost** you are responsible to pay for each prescription or healthcare service you receive. The remainder is paid by your insurance plan. If your plan has a deductible, coinsurance takes effect after the deductible is met.

Learn more about insurance plans and the terms they use by downloading a helpful guide.
